Aniket Kapale

Education

BTECH - Computer Science & Engineering	November 2022 - July 2025
Nanasaheb Mahadik College of Engineering, peth- Percentage: 70.20%	Sangli, India
Diploma in Computer Engineering	August 2017 - June 2020
Vidhyavardhini Institute of Technology, Kolhapur-Percentage:81.71%	Kolhapur, India

Skills

- **Programming**: Python (OOP, **DSA**, File Handling, Exception Handling)
- **Web Development**: HTML, CSS, JavaScript, React (basic), Django
- **Backend Development**:   Authentication, CRUD Operations, File Handling
- **Databases**: SQL (MySQL, Oracle) – Joins, Subqueries, Query Optimization
- **Tools**:   Git, VS Code
- **Core Strengths**:   Data Structures & Algorithms, Problem Solving, Analytical Thinking

Projects

Student Project Report Submission System
September 2024
- Developed a **Django-based** platform for project report submission and evaluation in educational institutions.
- Implemented secure authentication and role-based access (student, evaluator, admin).
- Enabled file uploads, feedback, and grading with centralized tracking.
- Designed **MySQL** schema and optimized queries for filtering reports by batch and department.

Self-Spot

January 2025
- Built a responsive front-end using **React** and **Tailwind CSS** for a user-friendly interface.
- Implemented reusable components and state management for interactivity.
- Worked on dynamic UI elements with a focus on performance and accessibility.

Internship

Oracle Database Language –Triplet's Services–Peth
July 2023 - August 2023

- Gained experience in **SQL** (DDL, DML, DCL) for database creation and management.
- Worked with **joins** and **indexing** for efficient data retrieval.
- Practiced query optimization and debugging for real-world datasets.
- Designed relational schemas with proper normalization to reduce redundancy and improve data consistency.
- Assisted in writing complex queries involving subqueries and aggregate functions for reporting purposes.
